WOOD'S LAWN GRASS SEED

We have used the utmost care in preparing the following mixtures, which from practical experience have given the most satisfactory results in the various localities for which they are recommended. Our experience of over forty years in supplying grass seeds for the Southern States has given us a knowledge of just what grasses will thrive under the various conditions which exist in different localities. In offering the following mixtures, we know that under anything like favorable conditions these mixtures will make a beautiful green lawn the year 'round.

WOOD'S EVERGREEN LAWN GRASS

A mixture composed of the finest grasses. Well adapted for use in the central and western sections of North Carolina, all of Virginia and the Northern States. With a little care and attention, Wood's Evergreen Lawn Grass in these localities will furnish a beautiful green all-year-round lawn. It does not contain any of the coarse grasses, only the best turf grasses being used.

Prices postpaid: lb., 55c.; 5 lbs., \$2.37; 10 lbs., \$4.35 25 lbs., \$10.35; 50 lbs., \$20.25.

WOOD'S DIXIE LAWN GRASS

In the eastern section of the Carolinas and the Southern States, where the finer grasses will not stand the hot summer months, our Wood's Dixie Lawn Grass is just what is needed to give a year-round beautiful green lawn. This mixture contains grasses that will thrive during the fall, winter and spring months, together with Carpet and Bermuda Grass, which will take possession during the summer. For putting in a new lawn, you will find that this Lawn Grass will give you better results than any other combination of grasses.

Prices postpaid: lb., 60c.; 5 lbs., \$2.55; 10 lbs., \$4.85; 25 lbs., \$11.60; 50 lbs., \$22.75.

WOOD'S PERMANENT LAWN GRASS

A mixture of hardy growing grasses, making an excellent turf for parks or large places which are subjected to harder usage than the ordinary lawn. It will stand dry, hot weather better than the finer lawn grasses, and is especially recommended for use where special care and attention cannot be given.

Prices postpaid: lb., 50c.; 5 lbs., \$2.10; 10 lbs., \$3.85; 25 lbs., \$9.10; 50 lbs., \$17.75.

SHADY PARK LAWN GRASS

A special mixture of grasses adapted to growing under trees and in shady places. This mixture can be very satisfactorily used in localities as described for Wood's Evergreen Lawn Grass.

Prices postpaid: lb., 55c.; 5 lbs., \$2.45; 10 lbs., \$4.65; 25 lbs., \$11.10; 50 lbs., \$21.75.

WOOD'S WINTER LAWN GRASS

A mixture especially adapted for sowing in the extreme Southern States. This mixture, under ordinary circumstances, will make a good green appearance in about two weeks—lasting throughout the winter and spring. A valuable grass mixture for Parks, Real Estate Developments, or for use where a quick green effect is desired during the fall, winter and spring months. Wood's Winter Lawn Grass is also adaptable for sowing on Bermuda sods.

Prices postpaid: lb., 40c.; 5 lbs., \$1.55; 10 lbs., \$2.85; 25 lbs., \$6.60; 50 lbs., \$12.75.

WOOD'S PUTTING GREEN MIXTURE

Composed of the fine dwarf growing grasses that will produce a thick velvety turf the year 'round. Also an excellent mixture for tennis courts and general lawn making. Recommended for Virginia, western Carolina, as well as the more Northern and Western States where care and attention can be given.

Prices postpaid: lb., 55c.; 5 lbs., \$2.45; 10 lbs., \$4.65; 25 lbs., \$11.10; 50 lbs., \$21.75.

WOOD'S FAIR GREEN MIXTURE

Especially prepared for college campus, public square, baseball parks and fairways of golf courses. This combination of grasses will stand rough usage, furnishing a good sod the year 'round. Our regular mixture contains Bermuda Grass, although we can supply same without this grass if desired.

Prices postpaid: lb., 45c.; 5 lbs., \$2.00; 10 lbs., \$3.75; 25 lbs., \$8.75; 50 lbs., \$17.25.

QUANTITY OF LAWN GRASS TO SOW.—One pound will seed about 300 square feet; 50 to 60 pounds of the finer mixtures per acre.

ALL PRICES QUOTED PER POUND AND PER QUART ARE POSTPAID TO ANY STATE
